

Tasman

Handcrafted from the finest woods using a combination of traditional techniques and modern technology, Tasman guitars are built to the absolute highest level of quality to ensure that they consistently deliver unparalleled sound and performance.

TASMAN 100 SERIES

TA100P

PARLOUR

A timeless Parlour guitar, great for finger picking styles, with superior mid and top range definition. Constructed with a 12th fret neck joint to the body for a more vintage response.

- Parlor is a smaller acoustic body shape, appealing to those wanting a smaller guitar. It produces a focused yet balanced sound with added sensitivity.
- Solid Spruce top provides a defined and dynamic tone.
- Sapele Back and Sides gives you a balanced and consistent sound with plenty of natural acoustic projection.
- Slotted Headstock with Vintage Styled Open-Gear machine heads and Bone Nut and Saddle for that classic authentic touch.
- Natural Gloss Body with Satin Finish Neck, for maximum durability and ultimate playability.
