

# Tasman

Handcrafted from the finest woods using a combination of traditional techniques and modern technology, Tasman guitars are built to the absolute highest level of quality to ensure that they consistently deliver unparalleled sound and performance.

TASMAN 100 SERIES

## TA1500-E

### ACOUSTIC ELECTRIC OM

**The Tasman TA1500-E Acoustic Electric is a genuine workhorse within the Tasman range, built for performance and dependability. Featuring an OM Body Shape, Mahogany back and sides and a Solid Mahogany Soundboard for a rich warm sound and crisp treble tones, with all Satin Finish.**

- Definitive OM body mid-size guitar, with great balance, volume and projection. Perfect for solo guitar performance.
- Natural Satin Body with Satin Finish Neck, for maximum vibration transfer and ultimate playability during neck position changes.
- Vintage Style Grover Open-Gear machine heads for tuning stability, incorporating Bone Nut and Saddle for well-balanced tonal qualities. Fishman Presys II Pre-amp and Pick-Up system for amplified capabilities, with active EQ controls at your fingertips.
